Oswego, Illinois

EDUCATION

Aurora University

Bachelor of Science in
Computer Science

Expected Graduation: May 2028

RELEVENT COURSEWORK

- Advanced Web Application Development
- Object-Oriented Design and Development
- Operating Systems Administration
- Data Structures
- Computer Systems/Architecture

TECHNICAL SKILLS

- Languages: Java, JavaScript, HTML, CSS, Python
- Frameworks & Tools: React, Node.js, Express.js, Bootstrap, Vite, Git, GitHub

PROFILE

Computer Science student at Aurora University and United States Marine Corps veteran with a strong foundation in programming, software development, and problem-solving. Experienced in developing personal and academic projects, including a published iOS application. Brings adaptability, teamwork, and attention to detail. Seeking opportunities to apply technical skills, gain professional experience, and contribute to meaningful projects.

PROJECTS

Energy Clickers — Published iOS Application

- Independently developed and published a mobile game on the Apple App Store.
- Managed application testing, debugging, updates, and the submission process.
- Gathered and incorporated beta tester feedback to improve functionality and user experience.

Course Tracker — React Web Application

- Developed a React application that retrieves and displays course information from an API.
- Built reusable components and implemented interactive course-completion tracking using React hooks and state management.
- Utilized JavaScript, Bootstrap, custom hooks, and GitHub to build and maintain the application.

WORK EXPERIENCE

United States Marine Corps
Corporal / Motor Transport Operator
Jacksonville, NC | October 2020 – August 2024

- Coordinated transportation operations involving personnel, equipment, and supplies while maintaining safety and accountability.
- Demonstrated leadership, teamwork, and effective communication in high-pressure environments.
- Solved operational problems, adapted to changing priorities, and maintained mission readiness.
